### Divorce Financial Considerations

If you are reading this, you are either contemplating divorce, in the middle of one or already on the backside. Regardless of your timeline, we understand your questions and concerns. The first things that come to mind are usually attorneys, money and kids. But rarely are you given the tools and checklists to manage life after divorce such as insurance, mortgages, investments and retirement planning.

## **Estate Planning and Taxation**

The three stages in life are accumulation, preservation and transfer. Everyone loves accumulation- it is fun to watch your wealth grow. But if you don't focus on proper preservation and efficient transfer, why even accumulate at all? Every life comes with a death sentence- sorry, harsh reality. Please don't ignore the value of proper estate planning.

We can work with your estate planning attorney to ensure that your estate plan fits into your tax plan.
